Duplexvent DV82 Entro-V

Up to 295 m³/h air volume @100 Pa

KEY FEATURES

- Domestic and residential heat recovery ventilation
- Thermal efficiency capabilities of 85% and above
- 2x ISO ePM Coarse 55% (G4) filters as standard with an extra supply air filter location for an optional ISO ePM1 55% (F7)
- Compact design
- Suitable for vertical mounting (kits included) as standard)
- Easy filter change with no tools needed
- Choice of spigot locations (top entry as standard)
- Suitable for left- and right-hand configurations
- Complies with Building Regulations
- SAP eligible
- 2 year warranty+

Duplexvent DV82 Entro-V

The DV82 Entro-V is a compact and efficient top entry MVHR unit, capable of recovering over 85% of the wasted heat.

The unit is made from galvanised steel, white powder coated casing with 20 mm EPP insulation which provides a great level of air tightness, thermal efficiency and sound absorption. DV65 has low energy EC fans with backward curved impellers that minimise the unit's energy consumption with a quiet operation and low specific fan

power, achieving an 'A' energy efficiency. The unit has an easy to clean and maintain plastic counterflow heat exchanger which prevents the airstreams from mixing. In addition, the unit is designed with a double filter facility that comes with two ISO Coarse 55% (G4) filters as standard with an optional ISO ePM1 55% (F7) pollen filter which provides additional protection against invisible, harmful particles creating an ultra-hygienic environment. ISO ePM Coarse 55% (G4)and ISO ePM1 55% (F7) can be used in conjunction with each other on supply air side.

ACCESSORIES

The following options are available

Accessory	Product Code
Entro-V digital controller	90001299
Entro-V basic controller	90001308
DV82 Entro-V G4(ISO ePM Coarse 55%) filter	90001324
DV82 Entro-V F7(ISO ePM1 55%) filter	90001327
DV82 Entro-V heater 0,5 kW	90001338
DV82 Entro-V heater 1 kW	90001339
DV82 Entro-V heater 1,5 kW	90001340
DV82 Entro-V heater 2 kW	90001341

ErP RATING

2

The DV82 Entro-V meets requirements set out by the Energy Related Products (ErP) Directive 2016, achieving an A rating. You can find out more about the ErP Directive and find the DV82 Fiche and Label at www.airflow.com Label 90001244

Duplexvent DV82 Entro-V

Up to 295 m³/h air volume @100 Pa

UNIT CONFIGURATION

The unit is supplied as a right-handed version as standard.

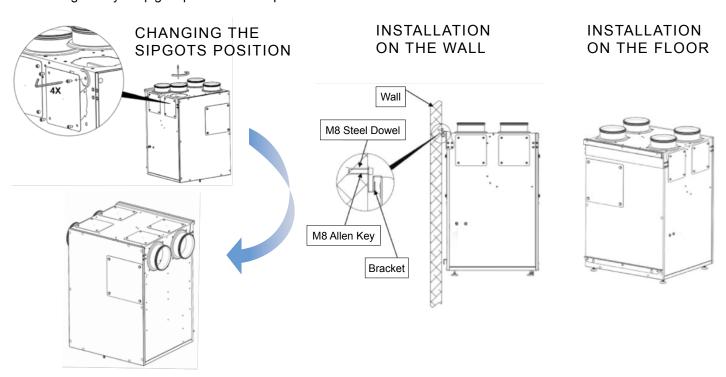

OA = Outside Air SA = Supply Air RA = Return Air EA = Exhaust Air

HEAT EXCHANGER DIAGRAM

INSTALLATION

The units can be installed in vertical mounting positions, on the wall or on the floor. Hanging brackets, screws and feet are supplied with the unit. Also, the unit has interchangeability of spigots position from top to the sides.

DV82 Entro-V	26,1	28,9	30,7	32,2	30,8	29,9	24,8	10,5	35,9

CONTROL OPTIONS

The unit can be controlled by one of the following:

- Basic controller
- Digital controller
- Modbus through a PC or a central automated unit
- Additional external sensors achieving on-demand ventilation
- Switched live signal from light/remote switches

Basic controls

*	Low fan speed e.g. background ventilation	()	Control button to increase the fan speed
7	Medium fan speed e.g. everyday running rate		Control button to decrease the fan speed
7	High fan speed e.g. when cooking or showering	0	Filter reminder / Error display LED
*	Boost increased occupants in dwelling; purging the dwelling		

BASIC CONTROL

A basic controller compatible with the DV82 Entro-V unit allows multiple standard functions such as:

- 3 fan speed control
- Boost function
- Free cooling via the by-pass actuator
- Frost protection based on input signals from humidity and temperature sensors
- Modbus function
- Faults indicator
- Filter maintenance reminder
- Fire alarm function
- Child-proof protection locks/unlocks the buttons providing extra safety

DIGITAL CONTROL

A digital controller also provides:

- Optional separate fan control for ease of commissioning
- Weekly ventilation programming allows users to pre-set the ventilation levels scheduled for different days
- Screen brightness and contrast settings
- Optional humidity or air quality sensors enable automatic boost control
- Indoor temperature control based on room, extract or supply air temperature
