

# Quiet-Vent 75mm 6pt Adjustable Top Entry Distribution Box 125mm Spigot

The Quiet-Vent 75mm 6 Point Adjustable Top Entry Distribution Box is designed for flexible installation in ventilation systems requiring a top-entry configuration. It features a 125mm spigot and is ideal for ceiling or floor installations. This box allows easy adjustments to suit different ducting configurations and ensures airtight connections with the use of sealing rings. Unused vents are to be sealed with blanking caps for optimal system performance.
